MEMORANDUM

TO: New River Valley Regional Jail Authority Members

Bland County Carroll County Floyd County Giles County

Grayson County Pulaski County City of Radford Wythe County

FROM: Superintendent Gregory P. Winston

Date: July 12th, 2019

Subject: Budget for FY July 01, 2019 to June 30, 2020

The staff of the New River Valley Regional Jail, in conjunction with the New River Valley Regional Jail Authority Finance Committee, is pleased to present our operating budget for fiscal year July 01, 2019 to June 30, 2020.

The budget was developed in accordance to the guidelines provided in the Authority Agreement dated February 28, 1995, as amended, and the 1997, 2008, and 2016 Bond Issue Master Indenture.

This balanced budget was approved by a vote of 10 yes and 2 no at the New River Valley Regional Jail Authority meeting held on May 10, 2019.

The FY 2019/2020 Operating budget for the New River Valley Regional Jail Authority is based on an average daily inmate population of <u>876</u> local and state responsible inmates. The cost per inmate day (per-diem) will increase from \$27.50 to \$28.65 for FY 2019/2020. Actual daily use, multiplied by the per diem provides the basis for our members' annual cost to house an inmate at the Regional Jail.

Revenue funds were allocated as part of either the Service Agreement or Master Indenture to maintain the reserve accounts of the New River Valley Regional Jail which are identified below:

Operating Reserve – Section 5.3 of the Authority's Service Agreement requires the Authority to provide an Operating Reserve in each of its Annual Budgets in an amount that is equal to 25% of its projected Annual Budget for each year, less debt service (current requirement is approximately \$4.6 million).

Debt Service Reserve - The funding of a Debt Service Reserve is addressed in both Section 5.3 of the Service Agreement and Section 7.5 of the Master Indenture. These funds are sized equal to the lesser of maximum annual debt service, 10% of the principal amount of the bonds or 125% of average annual debt service. The current funding level is approximately \$3.6 million. This fiscal year, we altered the investment of our debt service in order to increase our interest earnings.

Repair and Replacement Reserve – Established in Section 7.6(b) of the Master Indenture is funded in an amount determined by the Authority based upon projections of future capital needs. The Repair and Replacement Reserve must be maintained at a minimum balance of \$100,000. Once again, this year's budget provides additional funding of \$150,00.00 of repair and replacement reserve funding in addition to any residual revenues at the end of the fiscal year.

Budget highlights for FY 2019/2020

The FY 2019/2020 Operating budget is based primarily on the operational needs of the facility for the next fiscal year.

Revenue Summary:

**	Charges for Services as a percentage of total revenue (per	41%
*	diems): Intergovernmental revenue as a percentage of total	56%
***	revenue:	3070
**	Miscellaneous, recovered costs, interest:	3%

Notable items with regard to FY 2019/2020 revenue projections include:

* An increase in per diems collected from some member jurisdictions from the previous budget year due to a reduction in the prisoner population forecast.

❖ Use of Vacancy Saving funds from the Compensation Board's Permanent Personnel and Equipment Expense funding to off-set budget expenses. In previous years, this has been shown in the budget as a separate revenue source. This year's budget consolidates that revenue in its proper position as State Compensation Board salary reimbursement. These funds will be used to off-set the cost for fuel, vehicle equipment and maintenance, police supplies and temporary personnel.

* We expect to receive \$180,000 from the Department of Corrections to cover medical costs incurred by state responsible inmates during the FY 2019/2020 budget.

Additional revenue is expected in the form of cost recovery from prisoners.

Expenditure Summary:

**	Employee cost as a percentage of total expenditures:	64%
*	Debt service as a percentage of total expenditures:	17%
*	Building costs as a percentage of total expenditures:	5%
*	Inmate service costs as a percentage of total expenditures:	6%
*	Miscellaneous expenditures:	8%

Notable items with regard to FY 2019/2020 expenditure projections include:

- As a result of a significant increase to our current health insurance provider, we changed our health insurance provider, which reduced our cost to approximately a 5.5% increase over last year's cost.
- The Commonwealth authorized a 3% increase in salary for employees.
- Training costs increased in order to accommodate the training requirements of the Compensation Board's Career Development Program (Master Jail Officer).
- The most significant contribution to the increase in projected expenditures is a result of the removal of a large portion of Mental Health Services from the local Community Services Board as well as the increase of mandatory mental health services for prisoners.
- **❖** Budget increase to fund the cost of several capital improvement projects to include:
 - * Kitchen equipment repairs
 - Security System Repairs and Replacement

- * Repair and Replacement of HVAC equipment
- Roof repairs and other infrastructure repairs

Please be aware that our budget is contingent on inmate population meeting or exceeding this expectation based on historical data and current trends. According to the most recent forecast models, the population of state responsible prisoners is expected to rise by approximately 0.3% annually and adult local responsible inmates is expected to rise approximately 0.3% annually. Our population forecast was conservative, based upon our local trend analysis and the unpredictable population numbers statewide for the past three fiscal years ('16-'18). Failure to meet projected population trends may result in a mid-year per diem adjustment.

I wish to thank our Director of Finance, the members of the Finance Committee, the Treasurer, and all members of our staff for their continued support and assistance in the preparation of this document. Their financial experience, wisdom, and knowledge has proven to be invaluable.

The Administrative staff will evaluate the budget on a frequent basis. Any areas of concern will be brought to our members' attention without delay.

Sincerely.

Gregory P. Winston Superintendent

NEW RIVER VALLEY REGIONAL JAIL AUTHORITY OPERATING ACCOUNT

To be held by or at the direction of the Authority

OPERATING ACCOUNT INSTRUCTIONS

The authority shall maintain a balance in the Operating Account such that at the beginning of each calendar quarter the amount therein will not be less than the Operating Reserve Requirement less Operating Reserve Credits plus one-fourth (1/4) of the Operating Expenses budgeted to be paid from the account in the current Annual Budget. The Authority will pay Operating Expenses from the Operating Account as they become due and in accordance with the purposes and amounts provided in the Annual Budget. Interest received on, and any profit realized from, the investment of money (held) in the Operating Account would remain in such Account.

For purposes of computation of the one-fourth (1/4) of the Operating Expense Reserve Requirement, the following formula has been used:

- 1. Annual Budget of the Authority;
- 2. (Less Salaries and Wages paid by the State);
- 3. (Less Medical Reimbursement from the State);
- 4. (Less Operations Reimbursement from the State);
- (Less Annual Debt Service Payment);

6. Multiply by .25 = Operating Expense Reserve

NOTE: The Operating Account contains the Annual Budget for the New River Valley Regional Jail Authority fiscal year. All anticipated expenditures of the Authority are reported in this account with the exception of inmate accounts which are governed by certain sections of the Code of Virginia, 1950, as amended, and the Board of Corrections Minimum Standard Manual. Funds are collected and disbursed from separate checking accounts that are annually audited by the Authority's auditor.

To be held by the Trustee

CAPITALIZED INTEREST SUB-ACCOUNT

BOND ACCOUNT INSTRUCTIONS

The Trustee will pay the principal of and interest on the Bonds when due from the Principal Sub-Account and the Interest Sub-Account, respectively. The Trustee will use money in the Redemption Sub-Account of the Bond Account to redeem Bonds pursuant to any optional redemption provision exercised by the Authority. The Authority will receive a credit against payments required to be made with respect to any series of Bonds on any mandatory redemption date in an amount equal to the principal amount of any Bonds of such series subject to mandatory on such date that have been redeemed before such mandatory redemption date

or that have been purchased by the Authority or the Trustee on behalf of the Authority and delivered to the Trustee for cancellation at least seventy (70) days before such mandatory redemption date. In the event the balances on deposit in the Principal Sub-Account or the Interest Sub-Account are insufficient, the Trustee will transfer to such Sub-Accounts the amount necessary to pay the Bonds from the Debt Service Reserve Account, but only to the extent amounts paid by the Authority from the General Reserve Account and from the Repair and Replacement Reserve Account are insufficient for that purpose. Interest received on, and any profit realized from, the investment of money in the Bond Account will become a part of the Sub-Account in the Bond Account in which the investment is held. Interest in the Capitalized Interest Sub-Account will be transferred to the appropriate Project Account unless otherwise directed by any Supplemental Indenture.

FUND 5

NEW RIVER VALLEY REGIONAL JAIL AUTHORITY DEBT SERVICES RESERVE ACCOUNT

To be held by the Trustee

DEBT SERVICE RESERVE ACCOUNT INSTRUCTIONS

The Debt Service Reserve Account will be used by the Trustee to make transfers to the Bond Account to the extent necessary to pay the principal of and interest on any series of Bonds which are secured by the Debt Service Reserve Account when due if the amounts on deposit in the Principal and Interest Sub-Accounts of the Bond Account and amounts transferred by the Authority from the General Reserve Account and from the Repair and Replacement Reserve Account are insufficient for such purpose. The Trustee will establish a separate sub-account in the Debt Service Reserve Account for each series of Bonds secured thereby, and the funds in each such sub-account shall be pledged solely to the series of Bonds for which it was established. In the event the amount on deposit in the Debt Service Reserve Account in the aggregate is less than the Debt Service Reserve for each series of Bonds secured thereby, the Authority will transfer funds from the General Reserve Account and from the Repair and Replacement Reserve Account to the Debt Service Reserve Account to restore the Debt Service Reserve Requirement in the manner provided in the Master Indenture. In the event funds transferred to the Debt Service Reserve Account are not sufficient to cure all of the deficits that may exist in the sub-accounts therein, such funds will be ratably distributed among such sub-accounts in which a deficit exists. Within five (5) days after each Principal Payment Date and Interest Payment Date and at such other times as the Authority may request, the Trustee will determine if the balance on deposit in the Debt Service Reserve Account is at least equal to the Debt Service Reserve Requirement for each series of Bonds so secured; if a deficit exists, the Trustee will immediately notify the Authority of the deficit. If the balance in the Debt Service Reserve Account is equal to the Debt Service Reserve Account Requirement, any interest received on, and profit realized from, the investment of money in the Debt Service

Reserve Account will be transferred to the Project Account during construction of the Project and thereafter to the Interest Sub-Account of the Bond Account, unless otherwise provided in any Supplemental Indenture.

In lieu of maintaining and depositing money or securities in the Debt Service Reserve Account, the Authority may deposit with the Trustee an irrevocable letter of credit, bond insurance policy or surety bond in an amount equal to all or a portion of the Debt Service Reserve Requirement for any such series of Bonds, provided the issuer of the letter of credit, bond insurance policy or surety bond, as appropriate, is rated in one (1) of the two (2) highest long-term debt rating categories by the Rating Agencies then rating such series of Bonds, without regard to any refinement or gradation of such rating category by numerical modifier or otherwise. Any letter of credit or bond insurance policy or surety bond will permit the Trustee to draw or obtain amounts under it for deposit in the Debt Service Reserve Account that, together with any money already on deposit in the Debt Service Reserve Account, are not less than the Debt Service Reserve Requirement for the series of Bonds secured by any such credit facility.

The Trustee will make a drawing on any letter of credit or obtain funds under the bond insurance policy before its expiration or termination (i) whenever money is required for the purposes for which Debt Service Reserve Account money may be applied; and (ii) unless the letter of credit, bond insurance policy or surety bond has been extended or a qualified replacement for it delivered to the Trustee, in the event the Authority has not deposited money in immediately-available funds equal to the Debt Service Reserve Requirement for the series of Bonds secured by any such credit facility at least two (2) business days preceding the expiration or termination of the letter of credit or bond insurance policy.

If the Authority provides the Trustee with a letter of credit, bond insurance policy or surety bond, the Trustee will transfer the corresponding amount of funds then in the Debt Service Reserve Account for the series of Bonds secured by any such credit facility to the Authority, provided the transfer of funds will not adversely affect the exclusion from gross income for purposes of federal income taxation of interest on the Bonds, and the Authority covenants to comply with any directions or restrictions contained in such opinion concerning the use of such funds.

 - (4) to pay any capital costs with respect to the Facilities;
